**PREMIUM
TREATS**
with meat

PREMIUM TREATS

DENTOS Farm is a range of premium pet treats without the use of any artificial additives, chemical preservatives and artificial colours. We place great emphasis on the quality of the selected ingredients and their positive effect on the animals' digestion. Thanks to our veterinary operation, we can use more meat in our dog treats than is customary in similar treats from competing brands and thus achieve a greater taste experience. We also add healthful ingredients such as herbs, garlic and oatmeal to the treats. In addition, we try to package our products as environmentally friendly as possible to save nature and not create unnecessary waste. Try our new range of products and we guarantee you won't reach for another!
